

RUSSEL JAY BUAN

WEB DEVELOPER

ABOUT ME

I'm an aspiring web developer. I possess the fundamentals of programming and was able to create projects of my own and in a team as well by utilizing various technologies like Nodejs, Reactjs, Laravel, and more. I feel very ecstatic about boosting my current skills and learning new technologies. I couldn't be happier to finally be able to put my hard work and skills to contribute to a company that will help improve both my soft and hard skills, career growth, and personal growth.

EXPERIENCES & PROJECTS

The Green Project

<https://sseljay.github.io>

HTML CSS • BOOTSTRAP • MEDIA QUERY

- An Environmental Website focused on spreading knowledge about our world's environmental crisis.
- Mainly utilized Bootstrap, Media Queries, and a bit Javascript.

Onlypans

<https://sseljay.github.io/onlypans-makati/>

REACTJS • BOOTSTRAP • JSON REST API

- An E-commerce website for a restaurant located in Makati.
- I specifically worked on the front end and Trello management for this website.

Codify

REACTJS • MATERIAL UI • REDUX • LARAVEL • MYSQL

- Codify is our team's freelancing website.
- My part in this project is the development of Laravel API for clients, I also took part in some tasks in the front-end development and managed our Trello from time to time.

Portfolio Website <https://sseljay.github.io/myportfolio/>

REACTJS • VITE JS • TAILWIND CSS

- I created this website to showcase what I can do with my current skillset
